Update Procedures (Overview)

Perform steps 1 through 6 listed below.

- Step 1 Check the firmware version currently installed in your Blu-ray Disc™ Player.
- Step 2 Check the latest firmware version available for your Blu-ray Disc™ Player.
- Step 3 Download the latest firmware.
- Step 4 Decompress the downloaded file.
- Step 5 Create a firmware update disc.
- Step 6 Install the firmware.

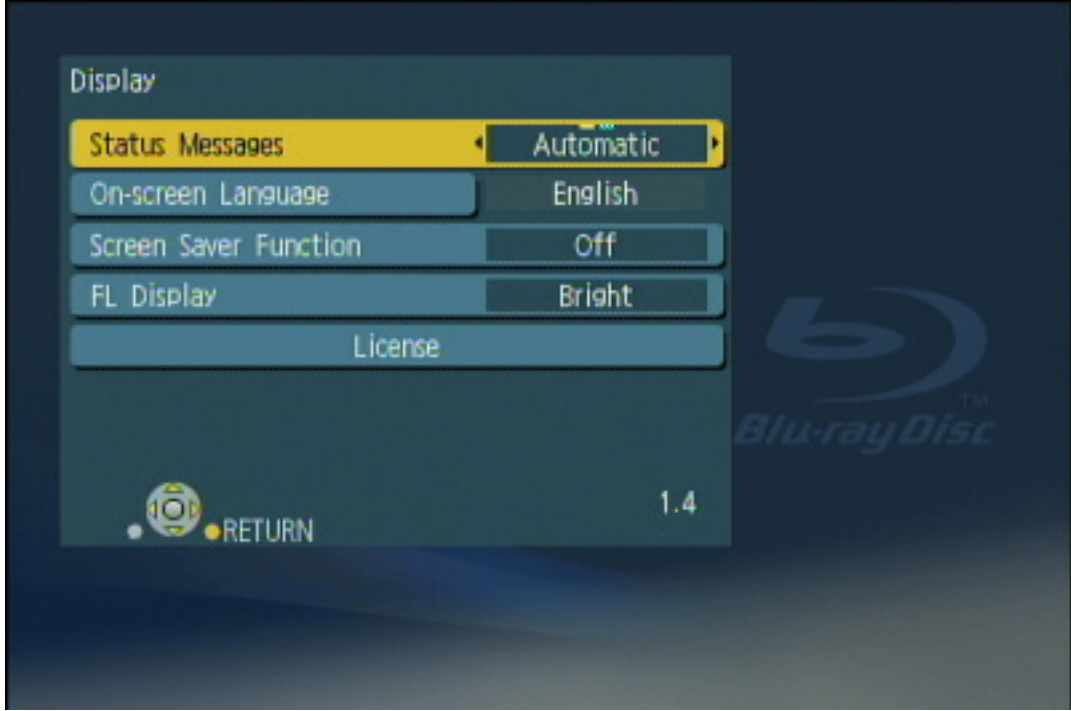

Step 1. Check the firmware version currently installed in your Blu-ray Disc™ Player

Follow the steps below to check the firmware version currently installed in your Panasonic Blu-ray Disc™ Player.

Steps

- Turn on the main unit.
- Press the [SETUP] button on the remote control to open the display menu screen.
- Using the Up and Down cursor buttons on the remote control, select the "DISPLAY" tab - "DISPLAY" items will appear.
- Press and hold the [STATUS] button on the remote control. While doing so, the current firmware version for your player will be displayed in the lower right hand corner of the screen (e.g. "1.4").

Please make note of this version number.

Step 2. Checking the latest firmware version available for your Blu-ray Disc™ Player

Confirm the latest firmware version that is available for "the Model Number of your Blu-ray Disc™ Player" by referring the "Update Information" section provided above (near the top of this page).

Please compare this firmware version number to the version number of the firmware currently installed in your Panasonic Blu-ray Disc™ Player (the firmware currently installed in your Panasonic Blu-ray Disc™ Player was checked in "Step 1").

- If the version of the firmware installed on your Panasonic Blu-ray Disc™ Player and the latest firmware version available are the same
>> No update is necessary.
- If the version of the firmware installed on your Panasonic Blu-ray Disc™ Player is lower than the latest version available
>> Update is recommended - Please continue to step 3

NOTE:

- The firmware for your Panasonic Blu-ray Disc™ Player may not need to be updated even though a firmware update has been released - for example.
 - If your Panasonic Blu-ray Disc™ Player was manufactured after the firmware was released and the firmware update has already been installed.
 - If your Panasonic Blu-ray Disc™ Player was serviced by an authorized Panasonic service technician, the player was updated with the latest firmware.

Step 3. Download the latest Firmware

If the version of the firmware installed on your player is lower than the newest version of the firmware available, please download the newest version of the firmware. Use of software downloaded from this site requires agreement with the License Agreement. Please review the contents of the License Agreement beforehand.

License Agreement

IMPORTANT-READ CAREFULLY: This LICENSE AGREEMENT ("AGREEMENT") is a legal AGREEMENT between you, a lawful possessor of certain Panasonic product ("Product"), who will be referred to in this AGREEMENT as "Customer" and Panasonic Entertainment & Communication Co., Ltd. ("Panasonic") for the use of the firmware provided through this website ("Software"). The Software also includes any software updates, add-on components, and/or supplements that Panasonic may provide to Customer or make available to Customer after the date Customer obtain initial copy of the Software. In addition to proprietary computer programs owned by or licensed to Panasonic, the Software contains a number of individual copyrighted open source software programs licensed under its applicable license terms including but not limited to [GNU General Public License](#) and [GNU LESSER General Public License](#) (collectively "Open Source Software Programs"). For Open Source Software Programs, please refer to the applicable license terms included in the "Software License" menu on Product. In the event of any conflict between the terms under this AGREEMENT and the applicable license terms of Open Source Software Programs, the applicable license terms of Open Source Software Programs shall prevail.

Article 1 License
Customer is granted the right to download, install and use one copy of Software on a single Product but only for installation and use in the designated area (if any) of indicated Products. The Software also includes any software updates, add-on components, and/or supplements that Panasonic may provide to Customer or make available to Customer after the date Customer obtain initial copy of the Software to the extent that such items are not accompanied by a separate software agreement or terms of use. By installing, copying, downloading, accessing or otherwise using the Software, Customer agrees to be bound by the terms of this AGREEMENT.

Article 2 Restrictions.

Please click the button when agreeing to the agreement.

I accept the agreement.
